MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : National Intelligence Survey (NIS) Production
Schedule for FY 1970

REFERENCES : a. USIB-D-51.1/14, 22 March 1968, and
Memorandum for Holders thereof,
19 April 1968
b. USIB-M-504, 11 April 1968, Item 3

1. The enclosed memorandum on this subject from the Chairman of the NIS Committee, circulated herewith for Board consideration, responds to Board action in reference a. which noted that the NIS Committee would submit an annual production schedule to the USIB.

2. The enclosed schedule reflects the production priorities established in the NIS Coverage Plan as approved by USIB in Item 3. a. of reference a. Mr. Brammell's memorandum stresses, however, that manpower reductions in DIA, imposed by the Bureau of the Budget and specifically identified with the NIS Program, have significantly affected production planning. The immediate result is a reduction of 11 units programed for production in FY 1970 and a stretchout in the NIS revision cycles. There is also a slight reduction in CIA's production of detailed economic sections. Overall, production units for FY 1970 total 364, a 5% reduction from FY 1969.

USIB Action Requested

3. Board members are requested to advise the Secretariat by close of business 26 September of their concurrence or other views on the enclosed memorandum and its attachment.
